2019 PENTWATER STREET & UTILITY IMPROVEMENT PROJECT

NOTICE OF CONSTRUCTION

Dear Resident:

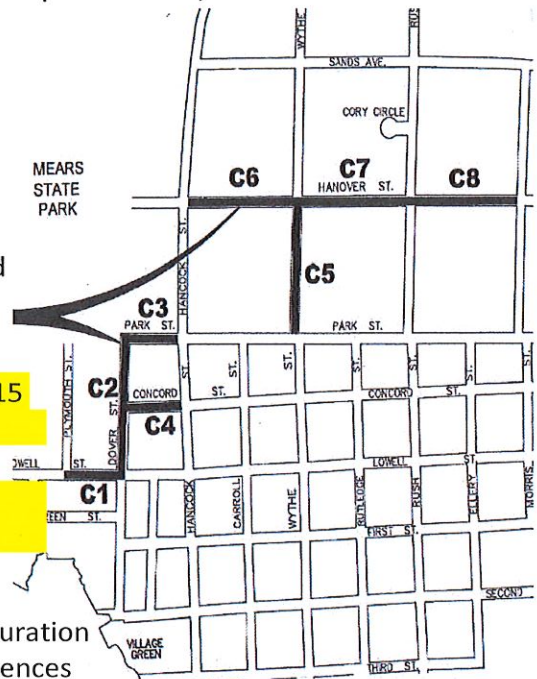

This notice is to update you of construction activities for the 2019 Pentwater Street & Utility Project. This project includes the following:

- Removal of existing pavement and repaving of streets indicated on map below.
- Various water main, sanitary, and storm drain improvements on indicated streets.
- Miscellaneous construction items include drainage improvements, surface restoration and pavement markings.

IMMEDIATE CONSTRUCTION SCHEDULE:

April 10 – April 30

- One crew will start on Lowell St. on April 10-12th. The Village asked that when Lowell St. is completed that the contractor keep it free from obstruction and equipment. C1 – C4
- The second crew will start on Hanover St. on April 15 or April 22. They will continue down Hanover St. to Wythe St. From there the contractor will begin work on Wythe St. at Park St. and continue north to Hanover St. from there they will continue east on Hanover St. C5 – C8

The affected streets will be closed to through traffic for the duration of the construction schedules. Access to businesses and residences will be maintained throughout the project. During the course of construction there will be brief interruptions in water service when the contractor makes water main connections and connects new water services. We will attempt to notify you before we turn off the water. For a short period of time the appearance, smell, and/or taste of your water may be different. The water will be safe to drink. If your water has aesthetic issues, run the cold water tap at a shower or bathtub faucet for a few minutes. After that, run all indoor cold water taps for a few minutes to flush your home's internal plumbing and ensure it is fully pressurized and free from air pockets.

The onsite Representative has not yet been selected. When more information is available, it will be updated on the Village website. The contractor for the project is Hallack Contracting, Inc., Hart, MI. We thank you for your cooperation and patience during construction.

For questions, please contact the following:
Chris Brown, Village Manager (231) 869-8301
